

PUBLICATIONS ON INTERNATIONAL JOURNALS

Ferretti R., F. Einaudi e L.W. Uccellini: Wave disturbances associated with the Red River Valley outbreak of 10-11 April 1979. *Meteor. Atmos. Phys.*, **39**, 132-168, 1988.

Ferretti, R., G. Visconti e F. Giorgi: Chemistry and transport of sulphur compounds from large oil fires studied with a 2-D mesoscale model. *Annales Geophysicae*, **11**, 68-77, 1993.

Ferretti, R. and G. Visconti: Dynamical and radiative response to the massive injection of aerosols from Kuwait oil burning fire. *Geophy. Res. Lett.*, **20**, 2889-2892, 1993.

T. Paolucci, L. Bernardini, **Ferretti R.**, and G. Visconti: Operational forecast using a high resolution limited area model. **22**, *Il Nuovo Cimento*, 727-736, 1999.

Ferretti, R., T. Paolucci W. Zheng, G. Visconti and P. Bonelli: Analysis of the precipitation pattern on the Alpine region using different cumulus convection parameterizations. **39**, *J. App. Met.*, 182-200, 2000.

Ferretti R., S. Low-Nam and R. Rotunno: Numerical simulations of the Piedmont flood of 4-6 November 1994. *Tellus*, **52**, 162-180, 2000.

Rotunno, R., and **R. Ferretti**: Mechanisms of intense Alpine rainfall. *J. Atmos. Sci.*, **58**, 1732-1749, 2001.

Pacione R., C. Sciarretta, C. Ferraro, C. Nardi, F. Vespe, C. Faccani, **R. Ferretti**, E. Fionda, and L. Mureddu: GPS meteorology comparison with independent techniques. *Phys. Chem. Earth (A)*, **26**, 139-145, 2001.

Pacione R., C. Sciarretta, F. Vespe, C. Faccani and **R. Ferretti**: GPS PW assimilation into MM5 with the nudging technique. *Phys. Chem. Earth (A)*, **26**, 481-485, 2001.

Faccani C., **Ferretti R.**, and G. Visconti : High resolution weather forecast over complex orography: Sensitivity to the assimilation of conventional data. Accepted in print by *Mon. Wea. Rev.*, 2002.

Ferretti R., T. Paolucci, L. Bernardini, and G. Visconti: The role of the high resolution weather forecast in estimating the run-off using a simple hydrological model. Accepted in print, by *Annali di Geofisica*, 2002.

Ferretti R., T. Paolucci, G. Giuliani, T. Cherubini, L. Bernardini and G. Visconti: Evaluation of high resolution real-time forecast over the Alpine region during the MAP SOP. Accepted in Print by *Q. J. R. Meteorol. Soc.*, 2002.

Rotunno R. and **R. Ferretti**: Comparative analysis of rainfall in MAP cases IOP2B and IOP8. Accepted in Print by *Q. J. R. Meteorol. Soc.*, 2002.

Accadia C., M. Casaioli, S. Mariani, A. Lavagnini, A. Speranza, A. De Venere, R. Inghilesi, **R. Ferretti**, T. Paolucci, T. Paccagnella, C. Cacciamani, G. Boni, S. Bovo and R. Cremonini: Application of a statistical methodology for limited area model intercomparison using a Bootstrap technique. Accepted in print by *Il nuovo Cimento*, 2002.

Faccani C., **Ferretti R.**, C. Sciarretta, R. Pacione, F. Vespe and G. Visconti: Assimilation of GPS PW using nudging technique in a Limited-area model: A case study for IOP7 MAP/SOP. Submitted to *J. App. Met.*, 2002.

Ferretti R. and R. Rotunno: A model aided analysis of the Piedmont flood 2000: Role of the topography and of the mesoscale convergence. To be submitted to *J. Atmos. Sci.*, 2002.

Ferretti R., G. Mastrantonio, A. D'Onofrio, S. Argentini, A. Viola, and L. Santoleri: A thermally driven circulation during winter on the Mediterranean sea along the Tyrrhenian coast. To be submitted to *J. App. Met.*, 2002.

INTERNATIONAL BOOKS

Paolucci T., **Ferretti, R.** and G. Visconti: Preliminary results of the short term regional climatic effects of the eruption of volcano Pinatubo: I Aerosol parameterization. *proceeding of The Effects of Mt. Pinatubo Eruption on the Atmosphere and Climate*, NATO-ASI Series, G. Fiocco et al. eds, Springer- Verlag, Berlin. 289-300, 1996.

Tomassetti B., Visconti G., Paolucci T., **Ferretti R.** and M. Verdecchia : Numerical experiments to study the possible meteorological changes induced by the presence of a lake. *Advances In Global Change Research, Global Change and Protected areas*. Kluwer Academic Publishers. pp 513-521, 2001.

R. Ferretti: Mesoscale modelling and methods applications. *Advances In Remote Sensing of Atmosphere and Ocean from Space*. In print Kluwer Academic Publishers, 2002.

PUBLICATIONS ON NATIONAL JOURNALS

Ferretti R., P. Antonelli, and G. Visconti: Preliminary results of the Piedmont flood of 4-6 November 1994. *Map Newsletter*, **5**, 50-51, 1996.

Ferretti R., S. Low-Nam and R. Rotunno: Dynamical aspects of the Piedmont flood. *Map Newsletter*, **9**, 36-37, 1998.

Richard, E, J. Charney, S. Cosma, R. Benoit, S. Chamberland, A. Buzzi, L. Foschini, **R. Ferretti** and J. Stein: Intercomparison of simulated precipitation fields for some MAP episodes. *Map Newsletter*, **9**, 12-13, 1998.

Cherubini, T., **Ferretti R.**, G. Visconti, P. Frontero, L. Lombroso, S. Pugnaghi, R. Santangelo and S. Nanni: Unforecast deep convection. *Map Newsletter*, **11**, 48-49, 1999.

Cherubini, T., **Ferretti R.**, G. Giuliani and G. Visconti: Scores of the Brig, Piedmont and Vaisone-la-Romaine cases using the MM5. *Map Newsletter*, **11**, 50-51, 1999.

OTHER PUBLICATIONS

Colacino, M., **Ferretti R.**, S. Giansanti, R. Purini and C. Valenti: L'inquinamento da SO_2 nella bassa valle del Tevere. *Pub. CNR AQ/3/8, Series of the program "Promotion for the air quality"*, 1981.

Colacino, M. and **R. Ferretti**: Micrometeorologia e conservazione dei beni culturali: Applicazione alla colonna Traiana di Roma. *Report CNR/IFA n. 82/4*, 1982.

Clerici G.C., Colacino M. and **R. Ferretti**: Simulation of reactive pollutants in Italian cities. *Report CNR/IFA n. 84/44*, 1984.

Ferretti R. and D. Fuà: Programmi per lo studio di circolazione atmosferica locale da usare su personal PC Olivetti M24. *Report CNR/IFA n. 85/33*, 1985.

Ferretti R. : Ciclo di lezioni sulla fluidodinamica geofisica. *Notes for the course of Geophysics at University of Rome "La Sapienza"*, 1985.

Ferretti R. and D. Fuà: Maximum Entropy method applied to meteorological data. *Report CNR/IFA n. 86/14*, 1986.

Ferretti R., 1994: Regional dynamical response to the radiative forcing of the eruption of volcano Pinatubo. *The Fourth PSU/NCAR Mesoscale Model User's Workshop, 29 Aug - 1 Sep 1994*.

Hoffman D. and **R. Ferretti** : Report from International Conference on Ozone in the Lower Stratosphere, Session 6 - AEROSOLS. *SPARC newsletter n. 5*, July, 1995.

Ferretti R. and G. Visconti : Risultati preliminari dell'alluvione del Piemonte: Simulazioni con un modello a mesoscala non idrostatico. *proceeding of the 1-Day Workshop on weather Forecast*, Nov, 1995.

Ferretti R. and S. Low-Nam, 1997: The Piedmont flood of 4-6 November 1994: A case study. *Preprints, The Seventh PSU/NCAR Mesoscale Model User's Workshop, 21-23 July 1997*.

T. Paolucci, **R. Ferretti** and G. Visconti, 1997 : Numerical simulations of summer convective precipitation cases in the Alpine region using different parameterizations: Preliminary results. *Preprints, The Seventh PSU/NCAR Mesoscale Model User's Workshop, 21-23 July 1997.*

V. Rizi, G. Redaelli, **R. Ferretti**, G. Visconti, L. Bernardini, T. Paolucci, C. Wedekind, B. Stein, H. Wille, B. Mielke, L. Wosté, M. Del Guasta, D. Guzzi, M. Morandi, L. Stefanutti, R. Matthey, V. Mitev, B. Lazzarotto, B. Calpini, P. Agostini, A. Antonelli, E. Kyro, M. Rummukainen, R. Kivi, T. Turunen and J. Karhu, 1997: One day observation of polar stratospheric clouds over Sodankylä (Finland): 22 of January 1997. Co-operative analysis with temperature radiosoundings, mesoscale model, air mass trajectories and aerosol physical box model. *IV European Workshop on stratospheric Ozone. Schliersee-Germany, 22-26 September 1997.*

G. Cinque, L. Bernardini, T. Paolucci, L. Bianco, R. Zauri, **R. Ferretti** and G. Visconti, 1998: Local effects of mountain weather in the central Italy: Preliminary results from the comparison of wind-Profiler, RASS and SODAR data with the MM5 numerical model. *Preprints, RADME98, 9-10 June 1998.*

L. Bernardini, **R. Ferretti**, T. Paolucci and G. Visconti, 1998: MM5 Real-time forecast on a DEC Alpha platform using OpenMP parallel directives. *Preprints, The Eight PSU/NCAR Mesoscale Model User's Workshop, 15-19 June 1998.*

T. Paolucci, **R. Ferretti**, L. Bernardini and G. Visconti, 1998: A Real-Time forecast of a catastrophic event on May 5, 1998. *Preprints, The Eight PSU/NCAR Mesoscale Model User's Workshop, 15-19 June 1998.*

T. Paolucci, **R. Ferretti**, L. Bernardini and G. Visconti, 1998: The catastrophic event on May, 5 1998: Precipitation Forecast and Runoff. *Preprints, 25^a Conferenza Internazionale di Meteorologia Alpina, CIMA ICAM, 1998, Torino-Italia, 14-19 Settembre 1998.* 267-270.

R. Ferretti, C. Faccani, T. Paolucci, and G. Visconti, 1999: The effects of surface and radio-soundings data assimilation on the forecast of a flood case. *Preprints, The Ninth PSU/NCAR Mesoscale Model User's Workshop, 23-25 June 1999.*

L. Bernardini, **R. Ferretti**, T. Paolucci and G. Visconti, 1999: Evaluation of the effects of a high resolution land-use on the forecast of heavy precipitation. *Preprints, The Ninth PSU/NCAR Mesoscale Model User's Workshop, 23-25 June 1999.*

R. Ferretti, A. D'Onofrio, L. Bernardini and G. Visconti, 1999: The influence of a high resolution Land-use on a winter sea-breeze. *Preprints, The Ninth PSU/NCAR Mesoscale Model User's Workshop, 23-25 June 1999.*

R. Ferretti, T. Paolucci, L. Bernardini, G. Redaelli, R. Dragani and G. Visconti: Model forecast lee-wave event during the APEGAIA airborne experiment. The tenth PSU/NCAR Mesoscale Model User's Workshop, 21-22 June 2000.

Tomassetti, B., G. Visconti, T. Paolucci, **R. Ferretti** and M. Verdecchia: Numerical experiments to study the possible meteorological changes induced by the presence of a lake. The tenth PSU/NCAR Mesoscale Model User's Workshop, 21-22 June 2000.

Paolucci T., T. Cherubini, **R. Ferretti**, G. Giuliani, L. Bernardini, C. Faccani and G. Visconti: Preliminary results of the MM5 real-time forecast during the MAP experiment. The tenth PSU/NCAR Mesoscale Model User's Workshop, 21-22 June 2000.

Cairo, F., A. Adriani, V. Viterbini, G. Di Donfrancesco, V. Mitev, R. Matthey, M. Bastiano, G., Redaelli, R. Dragani, **R. Ferretti** and L. Bernardini: Presence of a thin laminar structure of aerosol observed by the backscattersonde MAS and the Lidar MAL in the APEGAIA campaign. XIX Quadrennial Ozone Symposium, Sapporo, Japan, July 2000.

Cairo, F., A. Adriani, V. Viterbini, G. Di Donfrancesco, V. Mitev, R. Matthey, M. Bastiano, G., Redaelli, R. Dragani, **R. Ferretti** and T. Paolucci: A large event of polar stratospheric cloud observed over the antarctic peninsula with the airborne laser backscattersonde MAS and the Lidar MAL, in comparison with synoptic and mesoscale modeling, XIX Quadrennial Ozone Symposium, Sapporo, Japan, July 2000.

Mastrantonio, G., A. Viola, S. Argentini, **R. Ferretti** and A. D'Onofrio: Sodar contributions to the improvement of the low-level circulation numerical modelling. Proc. 10th International Symposium on Acoustic Remote sensing and associated techniques of the atmosphere and oceans, New Zeland, 2000.

Ferretti, R. and R. Rotunno : 'Numerical simulations of the heavy precipitation event of 14-16 Oct, 2000 over the Piedmont region', Proc. of 3^d EGS Plinius Conference, Baja Sardinia, 1-3 october, 2001.

Richard E., N. Asencio, R. Benoit, A. Buzzi, **R. Ferretti**, P. Malguzzi, S. Serafin, G. Zangl and J.F. Georgis: Intercomparison of the simulated precipitation fields of the MAP/IOP2b with different high-resolution models. Proc. 10th Conference on Mountain Meteorology and MAP meeting, Park City, 17-21 June 2002.
